The goal of the Pakistan Journal of Food Science is to offer scientists, researchers, and other food professionals the opportunity to share knowledge of scientific advancements in the myriad disciplines affecting their work, through a respected peer-reviewed publication. The Pakistan Journal of Food Science serves as an international forum for vital research and developments in food science. The Pakistan Journal of Food Science (PJFS) publishes peer-reviewed original research and reviews of all basic and applied aspects of food science for food scientists and other interested professionals.

As the premier international publication of articles concerning fundamental research covering all aspects of food science, PJFS is composed of eight sections, with each section embodying various aspects of food research: Concise Reviews and Hypotheses in Food Science; Food Chemistry; Food Engineering and Physical Properties; Food Microbiology and Safety; Sensory and Food Quality; Nanoscale Food Science, Engineering, and Technology; Health, Nutrition, and Food; and Toxicology and Chemical Food Safety. These subject areas include food safety and quality, food laws and regulations, ingredients and ingredient functionality, nutraceuticals, product formulation, sensory science and strategies, statistical process control and its contribution to food processing operations, food chemistry and toxicology, food engineering, food microbiology, and nutritive qualities of food that advance and impact our understanding of health. Reviews should provide in-depth coverage of a narrowly defined topic, and embody careful evaluation of all pertinent studies (weaknesses, strengths, and explanation of discrepancies in results among similar studies), so that insightful interpretations and conclusions can be presented. Hypothesis manuscripts are appropriate in pioneering areas of research or important areas that are impacted by scientific controversy.

The Pakistan Journal of Food Science is published at 3 months interval. In a year 4 issues of the journal in March, June, September, and December are published to form one volume.

**Manuscript Submission:** Authors must submit articles to Pakistan Journal of Food Science electronically (by e-mail) editor@pjfs.com in MS word format to facilitate efficient processing. Electronic Submission reduces time in reviewing and editing. Manuscript must be submitted according to the format and the style of Pak. J. Food Sci. Manuscript written in English and typed to fit A-4 (298 x 204 mm) paper.

**Peer review:** Papers submitted for publication in Pak. J. Food Sci. are sent to the experts for peer reviewing. The author will receive the decision of acceptance or otherwise of the manuscript from the editor immediately as soon as the review process is finalized.

**General Text Instructions:** Authors are requested to be brief and concise. The following style in the preparation of the manuscript may be followed:

All text should be in double columns and single spaced throughout. Page margin should be left 0.75 from top and bottom and 0.5 from left and right side of the page. Author’s institutional address should follow authors name and will not appear as a footnote. Papers other than Short Communications may be organized conveniently under: Abstract, Introduction, Materials and Methods, Results, Discussion, Acknowledgement (if necessary) and References. Further subdivision of the Results section may be made as necessary.

**Tables & Graphs:** Tables and graphs should be made in proper and editable format (scanned tables & graphs are not allowed) and numbered consecutively and must have descriptive headings which should be understandable without reference to the text. Instead of giving a number of small tables, the contributors are requested to consolidate small tables into a comprehensive one as far as possible.

**Figures:** To ensure highest quality of print (should be 300dpi resolution), the figures must be submitted in JPEG/ Tif with high resolution.
References: In the text the literature should be cited in case of one author e.g., (Nadeem, 1990) for Nadeem, M. 1990. Varietal differentiation in relation to crop yield. Pak. J. Food. Sci. 1(1) 1-5. In case of two or more citations e.g., (Nadeem, 1990; Anjum & Khan, 1991) for Nadeem, M. 1990; Anjum, F.M. and M.I. Khan. 1991. In case of publications of more than two authors, the name of first author should be followed by et al. References should be arranged in alphabetical order and the titles of journals should be abbreviated.

Some example references are:

Legal requirements: Authors must submit written and signed statement confirming that neither the whole paper nor its part has been published before or submitted for publication elsewhere, that it has been read and approved by all authors. Scanned copyright transfer statement must accompany with the corrected proof.

Page charges: Rs. 1000 will be charged as printing charges. If the manuscript is accepted for publication in Pak. J. Food. Sci. In addition Rs. 500 per page will be charged for extra pages above the limit of 7 Printed pages.

Manuscript template

Double Column text, except wherever a large figure has to be formatted as a single column. Except otherwise specified, manuscript text will conform to Times New Roman 10, 1.05 multiple line spacing

Full Title
[Be concise (Use Title Case)] Times New Roman 16 (Centered)

Name(s) of Author(s)
[Use first names or initials (with periods) and last names] Times New Roman 10 (Centered)

Author Affiliation(s)
[With complete address(es)] (Times New Roman 8 single column Centered) needs to be given below author names in order of appearance. Relation between author listing and affiliation needs to be indicated as superscripted numbers to the right of name in author listing and to the left in affiliation.

Contact information for Corresponding Author
[Include full name, complete mailing address, telephone, fax, and e-mail address]

Word count of text [When calculating word count, include title page, Abstract, Practical Application, body text, and references. Do not include tables or figure captions. There is a word limit of 5,000 words for Pakistan Journal of Food Science.

Abstract: Times New Roman 9 (single column) Justified
State what was done, how it was done, major results, and conclusions in 250 words or less (if abstract is longer than 250 words, you will be asked to re-write it) Define all acronyms and abbreviations; do not cite references

Keywords: Include five (5) keywords (no acronyms) for indexing purposes (don’t leave out the obvious ones).

Subsection title: Times New Roman 10 Small Caps with 4 pt spacing after the subsection title (paragraph formatting) left aligned. New Subsection text begins with 4 pt spacing before the text (paragraph formatting)
Introduction
In about 2 pages or less (double spaced), review pertinent work, cite key references, explain the importance of the research, and state the objectives of your work.

Materials and Methods
Provide sufficient detail so work can be repeated. Use subheads for clarity. Avoid use of trade names. Define abbreviations and acronyms.
Conduct statistical analysis only if variation with a treatment (standard deviation divided by the means) is greater than 10% and difference among treatment means is less than 3 standard deviations.

Results and Discussion
Present and discuss results concisely, using figures and tables as needed (but not the same information in both figures and tables). Compare results to those previously reported, and indicate what new information is contributed herein.

Conclusion
State conclusions (do not summarize) briefly.

References: (Times New Roman 9)
List only those references cited in the text (be sure references list all text citations).

Acknowledgments
List sources of financial or material support and the names of significant contributors (not authors).

Appendix
Not usually needed; can be added if necessary

Tables: (Times New Roman 9)
Number each table with Arabic numerals, and place a descriptive caption at the top. Print one table per page. Use plain text with tabs and returns—do not embed tables from other programs. Identify footnotes with lower-case letters appearing as superscripts.

Figures (graphs, charts, line drawings, photographs) (Times New Roman 9)
Use one illustration per page, with the figure number and caption below each figure. Use Arabic numerals. Authors are responsible for obtaining copyright permission to reproduce copyrighted illustrations.

Supplemental Information
Not usually needed. If you have very large tables, data sets, videos, or other supplementary material that is too large to publish in print or in a format not amenable to print, it can be published in the online version, attached to the paper in the table of contents. Submit supplementary materials as separate files and note at the end of the main body text that those files should be published online as such.

Review manuscripts
Essential elements (described elsewhere except for "text") are title page, abstract, introduction, text, conclusion, references. Summary tables and figures dealing with key points should be used liberally. The review should begin with a statement describing the importance of the topic and the objectives of the review. A standard format for headings in the text is not required, but headings and subheadings should be used whenever needed to improve the clarity and readability of the presentation. Topic must be covered in depth and information must be critically evaluated (strengths, weaknesses, discussion of discrepancies in results among similar studies) so that insightful, integrative interpretations and conclusions are achieved.

General Instructions
Use the English language (American spelling and usage) and the SI system (Système International d'Unités, often referred to as "International Units") for measurements and units.
